

Please be aware of a new VISA & MasterCard Credit Card SCAM is being utilized in the Midwest currently and making its way across our country. This Scam is very well thought out and very successful as the individual (scammer) provides the caller all the information pertaining to their Credit Card except for the one piece of information they are looking for. Note the callers do not ask you for your credit card number as they already have it.

The Scam Works like this:

Person calling says - *'This is (name) and I'm calling from the Security and Fraud Department at VISA (or MasterCard). My Badge number is 12460, your card has been flagged for an unusual purchase pattern, and I'm calling to verify. This would be on your VISA (or MasterCard) credit card which was issued by (name of bank). Did you purchase an Anti-Telemarketing Device for \$497.99 from a marketing company based in Arizona?'* When you say 'No', the caller continues with, *'Then we will be issuing a credit to your account. This is a company we have been watching, and the charges range from \$297 to \$497, just under the \$500 purchase pattern that flags most cards. Before your next statement, the credit will be sent to (gives you your address). Is that correct?'* You say 'yes'.

The caller continues - *'I will be starting a Fraud Investigation. If you have any questions, you should call the 1- 800 number listed on the back of your card and ask for Security. You will need to refer to this Control Number. The caller then gives you a 6 digit number. 'Do you need me to read it again?'*

Here's the IMPORTANT part on how the scam works - The caller then says, *'I need to verify you are in possession of your card'*. The scammer will ask you to *'turn your card over and look for some numbers'*. There are 7 numbers; the first 4 are part of your card number, the last 3 are the Security Numbers that verify you are the possessor of the card. These are the numbers you sometimes use to make Internet purchases to prove you have the card. The caller will ask you to read the last 3 numbers to him/her. After you tell the caller the 3 numbers, they'll say, *'That is correct, I just needed to verify that the card has not been lost or stolen, and that you still have your card. Do you have any other questions?'* After you say no, the caller then thanks you and states, *'Don't hesitate to call back if you do'*, and hangs up. You actually say very little, and they never ask for or tell you the card number.

When the individual actually calls the number on the back of their Visa or MasterCard, they are told the phone call they received was a scam and a \$497.99 charge has appeared on the account.

*****What the Scammer wants is the 3-digit Security PIN number on the back of the card. Don't give it to them. Instead, tell them you'll call VISA or Master Card directly for verification of their conversation. *****

The real VISA or MasterCard company will never ask for anything on the card, as they already know the information, since they issued the card! If you give the Scammer your 3 Digit Security PIN Number, you think you're receiving a credit. However, by the time you get your statement you'll see charges for purchases you didn't make, and by then it's almost too late and/or more difficult to actually file a fraud report.

Please be careful with your information!!!
