**NEWFOUND SCHOOL DISTRICT
TASK FORCE REPORTS**

The Newfound Area School District will hold a public forum on Wednesday, December 7th from 6:30-8:30 pm in the auditorium at the Newfound Regional High School.

There are two task force groups. One is the District Data Comparison Task Force was commission by the School Board Chair to compare financial and performance data from several school districts across the state. The second is the District Healthcare Task Force which was established in response to an advisory Warrant Article (by Petition) for the purpose of exploring various options including self insurance and/or a zero co-pay option for the Health Plans to be offered to employees of the District.

After spending several months gathering and organizing data from districts with student populations and general characteristics close to Newfound, their next step is to present the raw data with the goal of engendering conversations with the public in an open forum. All members of the community are invited to attend these forums, join the discussion, offer your thoughts, ask questions, or just listen. Attendance is highly recommended! Further information and the data from the reports can be found on the schools web site: www.sau4.org/districtdatataskforce
